

i wanted to voice my option on this matter and say that xm has been the best radio that ive ever had i have 4 of them and my mom and dad have 2 they are truckers and they are the ones that turned me on to xm and if you want to pull this kinda stuff i dont know what to think about the goverment and how you work but i get tired of having stupid comercals theres mor comcerals than song playing and thats not right i love to be able to have the freedom from that and i love having my favoriet songs and my instant weather to hear and if you take that away then it will be the same xm is the best thing that came along.

thanks
